

Call for papers - special issue on ORHC

We are glad to announce the special issue “**EURO 2021-Innovative approaches for emerging challenges in health services and care**” on Operations Research for Health Care.

The special issue for the 31st European Conference on Operational Research (EURO) 2021 held in Athens, Greece.

However, the call for papers **is not limited to researchers who presented their work at EURO 2022, but every contribution related to the topic of the call is welcome.**

We encourage contributions with new and innovative approaches in the scope of operations research and analytics as well as emerging challenges in all areas of health services and health care including:

- Public Health Policy
- Performance Evaluation
- Screening and Prevention
- Health Care Logistics and Supply Chains
- Health Care Resource and Capacity Planning
- Location Problems in Health Care
- Health Care Delivery
- Workforce Scheduling
- Patient and Appointment Scheduling
- Operating Room Planning and Scheduling
- Emergency Medical Systems
- Home Care and Long-Term Care
- Disease Modeling and Policy
- Cancer Treatment Planning
- Infectious Diseases

The deadline for special issue submissions is December 31st, 2021. The targeted date for publication is late 2022.

Further details can be found at:

<https://www.journals.elsevier.com/operations-research-for-health-care/call-for-papers/special-issue-for-the-31st-european-conference-on-operational-research-euro-2021-athens-11-14-july-2021>

You can submit your paper through <https://www.editorialmanager.com/orhc/default.aspx>, and select the article type option for special issue from the drop-down menu “Special Issue: EURO 2021”.

Best regards,

Joana Dias, Ettore Lanzarone, Fermín Mallor
